

## Online General Japanese Course Guide

General Japanese course is open to all NITech international students and researchers who wish to study Japanese. However, this course does not give any credits.

Tuition is free but students must have their own textbooks (About 2,000yen for each class).

### <Registration>

To take class online, please take Placement test and register class on Moodle by the day before class starts.

- How to take Placement test on Moodle (attachment 1)
- How to register general Japanese course on Moodle (attachment 2)

### <Attending Classes>

To attend the registered classes is the basic rule. If you cannot attend classes, student should inform your Japanese teacher immediately. Absences without notices for four classes or above, the enrollment will be cancelled automatically.

To change or cancel the class, you must enroll or cancel the class registration on Moodle by yourself.

### <Approval of Course Completion>

The examination is conducted at the end of the course. The approval of course completion is calculated comprehensively by each teacher from the examination, attendance, and assignment. Final grade is 60% or above, for completion.

Please check the official announcement whether you completed or not on our website.

### <Issuing Certificates>

Education center for international students will issue a Certificate of attending Japanese Language Course if you wish to request. Please apply at the International Student Affairs office. The certificate is issued after one week from the submission of your request.
